

This list is a compilation of information and offerings of different clubs. It is our hope to support the activities and growth of Rock and Gem Clubs in the Northwest. You will be welcome to join in on any of the listed field trips regardless of club affiliation. These trips are well organized and operated by volunteers. There are fees for participation and/or rocks you take on some of these trips. Please contact the people on the list about these trips since the MHRC does not have any additional information about them! The following information may be changed due to numerous conditions and situations. It is your responsibility to contact the designated field trip leader for final information and confirmation of the trips. If you choose to participate you are responsible for the actions, health and safety of yourself and your family. We expect you to treat your hosts with respect and follow the rules and respect the boundaries that they lay out. Uncooperative or disrespectful guests may be asked to leave and will not be welcome on future trips and activities. Rock Club names are at the end. **MANY THANKS TO OUR FELLOW ROCK CLUBS WHO GRACIOUSLY PROVIDED US WITH THEIR FIELD TRIPS!!!**
